

# Career Round Up

## Fall Break-Through

Fall break is the best time to assess your goals for the rest of the semester. Been slacking off? Rejuvenate yourself over the next week and bring yourself back to focus. Here are some tips for every class:

**Freshmen:** Are the classes you've been taking right for you? Think about what major you want to get into and what classes you may be interested in for next semester.

**Sophomores:** If you were to make a resume right now, what would it say? This is a great way to narrow down what you have done and what you still wish to do. Think about internships you may be interested in and get involved!

**Juniors:** Start looking at internships for next semester or next summer. Really assess your skills and think about what you would like to achieve during your college career.

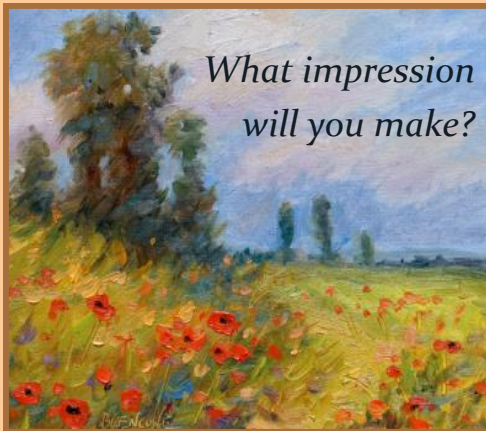

**Seniors:** Use this time to reflect on what you will do after graduation. Grad school? Deadlines are approaching so use this time to finish up applications. Volunteering? Check out programs you are interested in and talk with other volunteers. Going after a job? Start searching through career websites and make an appointment with the Career Center to get that resume perfected!

College goes by faster than you think so take advantage of the opportunities available while you can. It is never too late to get going!
